Articles: In Definitions

USE: **Abstract generic and concrete generic** forms can both be used in definitions.
              Definitions can be used to classify, describe or compare things.

              Abstract generic
              **Remember, abstract generic references are NOT used for simple, inanimate
              objects.
              The wolf is not a dangerous predator for humans.
              The tuna is a large fish that can be caught in the ocean near British Colombia.

              Concrete generic
              A wolf is not a dangerous predator for humans.
              A tuna is a large fish that can be caught in the ocean near British Colombia.
              Tuna fish is delicious and healthy.

*Write definitions for each word below. Remember that some nouns cannot be used with
ABSTRACT GENERIC STRUCTURES.*

Example: cellular phone A cellular phone is a device that uses radio waves to make and
                                    receive calls from almost anywhere.
